

Certified CA Small Business SBE #2008314
Proud Member of BuildOut California

Mike Heidebrink | Friday, October 1, 2021

Mike Heidebrink

- 32 years experience in construction trades, management, and procurement
- Entire family in concrete and construction
- Passionate about the creative possibilities of concrete

Is Sourcing a Nightmare?

- Finding the right product to build your vision
- Supply chain is strained
- Materials are in short supply
- Projects are being delayed

The World Is Still Short of Everything. Get Used to It.

Pandemic-related product shortages — from computer chips to construction materials — were supposed to be resolved by now. Instead, the world has gained a lesson in the ripple effects of disruption.

Facing shortages of construction materials and labor, builders try to be flexible
